

Kord-Valmark manufactures quality petri dishes and other essential laboratory and healthcare products. Kord-Valmark's superior mold design, precise process control and rigorous quality programs assure continued customer satisfaction. Kord-Valmark's products provide unrivaled consistency, ease of use and exceptional value.

Product Features:

- Disposable (single use) dishes are molded from medical-grade virgin polystyrene
- Optically clear
- Radiation sterilized
- Products are sterile if sleeves are unopened
- Ventilation ribs reduce condensation and allow air circulation
- Consistent flatness allows for even media distribution
- Flared lid skirt and squared corners allow for easy one-hand operation, especially with gloves
- Traceable by lot and SKU number
- Certificates of Compliance available upon request

Stackable Petri Dishes:

- Stackable polystyrene petri dishes are recommended for standard microbiology or general laboratory use
- The stackable lid design ensures stability
- Feature clear top and bottom viewing surfaces
- Available in 3 sizes: 60 x 15 mm, 100 x 15 mm and 100 x 25 mm
- Styles include: 100 mm x 15 mm Stackable Bi, Tri and Quad plate

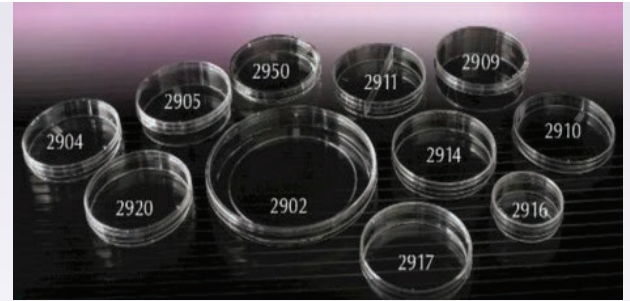

Stackable Petri Dishes for General Use

Nominal Size (mm)	K-V Code	Style	Rim Feature	Unique Feature	Dishes/Sleeve	Dishes/Case	Cases/Skid	Distributor Catalogue No.	Price/Case
60 x 15	2901	Mono	Stackable	Media Saver	20	500	72		
100 x 15	2800	Mono	Fully Stackable	Stable Stacking Design	25	500	30		
100 x 15	2900	Mono	Stackable	<i>The Industry Standard</i>	25	500	30		
100 x 15	2903	Bi	Stackable	Two Compartments	25	500	30		
100 x 15	2912	Tri	Stackable	Three Compartments	25	500	30		
100 x 15	2913	Quad	Stackable	Four Compartments	25	500	30		
100 x 25	2906	Mono	Stackable	Extra Deep Dish	17	340	30		

Automation/Slippable Petri Dishes:

- Automation and Slippable polystyrene petri dishes are recommended for standard microbiology and general laboratory use
- Slippable lids provide a semi-stacking feature for hand use, while ensuring ease of use in automated equipment
- Automation lids have no rim, ensuring ease of use in automated equipment
- Select products are available with Side Arrows and/or ISO Mark Targets
- Styles include a Slippable 100 x 15 mm Bi-Plate

Automation Petri Dishes (Slippable / No Rim Lid Designs)

Nominal Size (mm)	K-V Code	Style	Rim Feature	Unique Feature	ISO Mark Target	Dishes/Sleeve	Dishes/Case	Cases/Skid	Distributor Catalogue No.	Price/Case
60 x 15	2916	Mono	Slippable	Media Saver	No	20	500	72		
95 x 15	2914	Mono	Slippable	Media Saver	No	25	500	30		
100 x 10	2904	Mono	Slippable	Space Saver	No	30	750	24		
100 x 15	1920	Mono	No Rim	Automated Lid	No	25	480	30		
100 x 15	2910	Mono	Slippable	<i>The Industry Standard</i>	Yes	25	500	30		
100 x 15	2917	Mono	Slippable	Clear Viewing Surfaces	No	25	500	30		
100 x 15	2920	Mono	No Rim	Automation Lid	No	20	500	30		
100 x 15	2911	Bi	Slippable	Two Compartments	Yes	25	500	30		
100 x 20	2905	Mono	Slippable	Deep Dish, 20mm	Yes	20	400	30		
100 x 25	2909	Mono	Slippable	Extra Deep for Seed Germination Tests	No	17	340	30		
85 x 13	2950	Mono	Fully Stackable/Slippable	New 85 x 13 Ultra Plate	Yes	30	600	30		
150 x 15	2902	Mono	No Rim	Concentric Bottom Ring Ensures Even Media Depth	No	10	100	40
